

**we have an outstanding reputation
in bringing people together...
when required, we still do...
building protection around them!**

longest LASTING - good LOOKING

COVID19 easy add-on-barriers

Our **DSN table** system was designed to bring people together. During this difficult time however our system can be easily reconfigured to help our customers into cocooning guests through highly configurable safer spaces.

As usual it is easy at Drake's.

Acrylic barriers can be added in seconds to our table tops, no tool required.

Use the existing receptacles embedded in our table tops to slide in the protective barrier reducing cross contamination among parties.

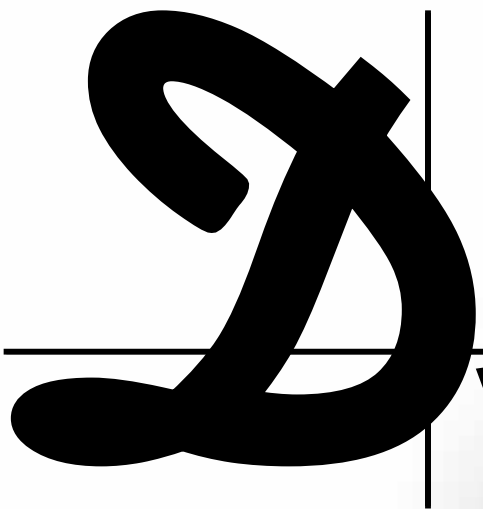

**BRINGING PEOPLE TOGETHER...
SIMPLY SAFER!!!**
