## High Back Chair Handling

### chair cart

#### easy moving...

Our **high back chairs** are traditionally used in Hotels and Banquet Halls where moving them through elevators and narrow corridors might be a challenge and the use of efficient but bulky Chair Trucks is difficult.

That is why we came up with a solution, adapting our famous custom made HDPE thermoformed chair pallet to a sturdy welded steel frame with an easy to pull handlebar.

Max Suggested load: 30 chairs  
(300lbs distributed load).  
2 rigid and 2 swivel 4" Caster  
(Polyurethane on Polyolefin)  
Net Weight: 30 lbs.  
Some assembly required.

Made in USA
