Chiavari

by drake

**stacking and
interlocking chair**

co-injection

we use a sophisticated "co- injection" technology, a simultaneous use of a solid and cosmetic skin with a structured foamed rigid core, producing a solid shape. These chairs have outstanding performances in durability, with long lasting life, and extreme ease of maintenance.

Material: composite multi-layer techno-polymer fiberglass reinforced, zinc hardware.

- extra strong
- extra light weight
- extra UV resistant
- interlocking
- easy handling
- easy maintenance

**Made
in
Italy**

not wood... better than wood!!!

Chiavari (aka Chiavarina) stacking chair

Drake Chiavari stacking chairs have been re-engineered from the ground-up. The NEW MIX of techno-polymers they are made of, makes them exceptionally **strong**, sturdy, **lightweight**, **easy to clean**, maintain and transport. Every detail is perfectly defined with strong round bars even more appealing than the wood ones.

Chiavari by Drake are **stacking and locking with a "click"** to ease transportation.

flexibility by Design, the forgiving nature of the back of the chair gives it a comfort level unparalleled by wood at the same time the flexing back of the chair prevents the front legs from going up, henceforth people won't "rock" the chairs as is so often a cause of injury and breakage with other chairs.

indoor/outdoor, our Chiavari are weatherproof, UV protected, don't need painting. They can be accessorized with different cushions and vinyl pads and can be safely used OUTDOORS with a set of LAWN SHOES that prevents them from sinking into the grass or sand.

stacking and locking with a "click"

WEIGHT: 10 lbs

DIMENSIONS:

Seat: 16 x 16 x 18 h [in.]
Stack of 7: 17 x 26 x 88 h [in.]
Stack of 8: 17 x 27 x 96 h [in.]
Stack of 10: 17 x 28 x 113 h [in.]

Available in **white**, **black**, **silver** and **gold**.

bringing seating outdoors
for breathtaking & unforgettable events

Chiavari shoes: no more sinking

Break the rules and move seating to locations that have always been traditionally difficult for chairs. Our chair shoes increase support for the chair legs on difficult ground, greatly reducing the sinking of the legs. Whether on the beach, on a green at your favorite golf club, or simply on a backyard lawn, our support system lets you bring our classy Chiavari chairs and your unforgettable events to a whole new level **outdoors**. Our Chiavari shoes are easy to deploy. Snap them onto the chair legs, no tools required, snap them off when finished.

Our Chiavari shoes do not interfere with the chairs ability to stack. Chairs can be collected, stacked, stored, moved and re-deployed without removing the shoes.

Small holes in the supporting plate area, allow the lawn to breathe, greatly minimizing any damage to it even with extended use of the chair on the grass.

Chiavari shoes: secure chairs to a pallet

Our Chiavari shoes can be used to secure our Chiavari chairs to a wood pallet, for easier and secure transportation. When one set of Chiavari shoes is screwed into a wood pallet, it secures the first chair of the stack to the pallet, preventing the chairs from sliding, keeping them firmly in place on the pallet. Use of additional strapping (not included) is suggested before moving a stack of chairs.

for breathtaking & unforgettable events

engage rigid seat pads

Good look, very low maintenance, tailored resin rigid base, with soft vinyl leather-textured cover and a 1" urethane foam. Our new upholstered Chiavari pads give the option of avoiding using velcro bullets:

- no modification to the chair necessary
- the pad engages with the contour of the chair creating **a lock** between the seat and the rear legs requiring it to be lifted vertically and parallel to the floor to disengage.
- the chairs can be used with or without the pads without worrying of the velcro adhesive bullets on the seat.
- available in **white** or **black** vinyl as a standard. Covers can be customized with a rainbow of colors/materials, see below.

special vinyl cover

Our Chiavari rigid seat pads could be finished by cotton supported special vinyls. Our vinyls are fire rated, with a very high abrasion resistance (2000 cycles with a 20N load ref. UNI 4818-15). They are very easy to clean, with water and a mild soap.

material: PVC 87.5% + cotton 12.5%

weight: 640 g/m2 +/- 50

flammability standards:

1 IM UNI9175 / USA MVSS 302

special fabric cover

Custom colors are available as fabric applied on our Chiavari rigid seat pads. Modacrylic is fire rated, with a very high abrasion resistance (55,000 martindale cycles), UV resistance (EN ISO 105-B02 @ 4/5), rubbing resistance (EN ISO 105-X12, wet @ 4/5, dry @ 4/5)

material: 100 Modacrylic

weight: 295 g/m2 +/- 15

flammability standards:

1 IM UNI9175 / EN 1021-1:2006 & EN1021-2:2006.

Chairs Handling

chair trucks & carts

by drake

**Making life
easier**

Chair Cart

Perfect solution for Hotels and Banquet Halls where moving chairs through elevators and narrow corridors might be a challenge and the use of efficient but bulky Chair Trucks is difficult. That is why we came up with a solution, adapting our famous custom made HDPE thermoformed chair pallet to a sturdy welded steel frame with an easy to pull handlebar.

- Max Suggested load: 30 chairs
- 2 regular and 2 swivel 4" casters (Polyurethane on Polyolefin)
- Net Weight: 30 lbs.

Chair Truck

SELF BALANCING... NO EFFORT!!!

Strong sturdy, a major help in handling chairs. Every task involving moving chairs will be easier. Truck width: 28"

- 4 pneumatic wheels/10" closed cell foam tires, ball bearing hubs
- powder coated steel frame
- expanded metal backguard & 54" aluminum fenders to protect load from rubbing on tires
- 34" long forks, 7/8" diameter, 14 3/4" apart, designed for heavy duty hauling
- MAX LOAD: 750 lbs.

Chair Handtruck

Our single axle chair handtruck is a good and cheaper alternative to a chair truck.

- Specifications:
- 2 pneumatic wheels/10"
 - folding forks
