FAN FOLDING & STACKING CHAIRS

No more hanging on racks as with similar chairs. Our chairs fold, stack (horizontally and vertically), and come equipped with an interlocking feature that makes moving and storing them quite simple. They are strong, durable, weatherproof, UV protected, don't need painting and require very little maintenance. Fan are well known folding and stacking chairs by Drake. The back is very flexible to meet higher comfort standards and to make the entire chair more impact resistant at the same time. The backs have furthermore been designed to have a smooth surface that's not textured, which makes it much easier to clean.

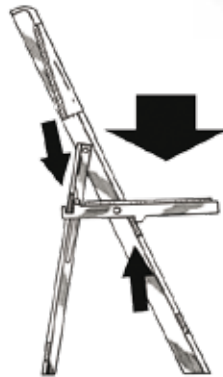

EXTRA STRONG & LONG LASTING

FAN chairs are made of a dual density technopolymer. The result is another incredible, exceptionally strong, and good looking chair for the Special Event Market.

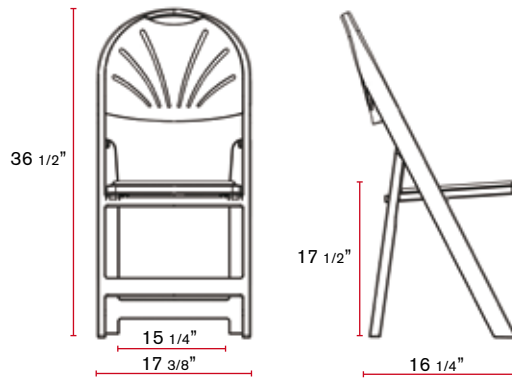

SMART DESIGN

The LOAD rests on the two bars supporting the seat, NOT on the screws as on similar chairs. All of our folding chairs must comply with a 500lb. of static vertical weight standard. FEDERAL SPECIFICATION AA-C-291F
