

foldin-**OLOGY** it is all about technology and formulations

**At Drake we use the most sophisticated technology
and the best formulations for the applications**

co-injection

Material: composite multi-layer techno-polymer.

On folding chairs like our **Ispira**, **Structure**, and our **High Back models**, we use "co-injection".

This technology allows the simultaneous use of a solid and cosmetic skin with a structured foamed rigid core, producing a solid shape. These chairs feel more rigid and have outstanding performances in durability, with long lasting life, and extreme ease of maintenance.

co-injection & gas

Material: composite multi-layer techno-polymer with gas assist.

On our **CHIP** folding chairs models, in their different material formulations, we use the same "co-injection" technology with gas assist, to obtain a cosmetic skin with foamed rigid tubular core and hollow shape.

These chairs have outstanding performances in durability, with long lasting life, extreme ease of maintenance and feel more flexible, being close to unbreakable even with harsh handling.

SMART DESIGN

All our folding chairs take advantage of our patents and design. The **LOAD** rests on the bars supporting the seat, **NOT** on the screws as on similar chairs. All of our folding chairs must comply with a 500lb. of static vertical weight standard. Static vertical weight testing **FEDERAL SPECIFICATION AA-C-291F**

● R-Tp
● R-Gr

CHIP-R recycled

This version is **army tough**. Due to the fact that we cannot contrast colors from previous applications, the colors in recycled chairs are rich with shades resembling the natural variety that can be found in wood materials.

Material: CHIP-R chairs are manufactured with post industrial recycled RESIN plus GAS system. Resin is treated and FIBERGLASS ADDED for maximum resistance. This model is intended for environmentally conscious customers only.

Available in **gray** and **taupe**.

RECOMMENDED for Government Agencies, PARKS, barns, farms and all other settings that are rustic in nature, due to their rugged "aged wood look"

WEIGHT: 10 lbs

DIMENSIONS:

Seat: 15 x 16 x 17 h [in.]
 Folded: 17 3/8 x 35 x 2 1/3 [in.]

Ispra

Ispra is the perfect OUTDOOR folding chair. It folds perfectly flat to 2 3/4". Guaranteed resistant to all weather conditions and UV rays, it is easily cleaned using water and a neutral liquid detergent. Sold in stacks of 25.

Linking armrest available as an accessory for Ispra chairs.

MATERIAL: composite multi-layer techno-polymer, stainless steel hardware.

Ispra meets and exceeds the standards set forth in ISO 7173, ANSI/BIFMA X5.1-1993 and ANSI/BIFMA X5.4-1997

Available in **white, green.**

WEIGHT: 11 lbs

DIMENSIONS:

Seat: 15 1/2 x 15 1/2 x 18 h [in.]
Folded: 35 x 18 x 2 3/4 [in.]
Stack of 25: 18 x 35 x 71 h [in.]

Each chair has 4 locking buttons for easy stacking.

Easy storage and handling

We ship 25 Ispra chairs on a resin base which can be easily handled with a handtruck or a palletjack. Four legs can be attached to the base for convenient palletizing. Four casters may be used to convert the resin base into an easy move around Ispra dolly.

Ispra linking armrest (optional)

One or more chairs can be aligned and linked with our linking armrest. Snap in - snap out no tools required.

High Back Folding Chairs

TABLE HEIGHT

Traditional

WHY "HIGH BACK CHAIRS"?

These chairs will better dominate the table set up due to the 41.5" long design, standing out and looking fabulous.

Whether used with additional decorations or simply bare, they add sophistication to the table with the ease of handling of a folding chair.

Furthermore these chairs provide an amazing back support during sitting giving extreme comfort, unparalleled by regular folding chairs.

**Made

Chateau

Chateau chairs by Drake, will better dominate the table set up due to the 41" tall back design. With their high decorative shape towering the tables and their classical rich lines, will stand out and look fabulous whatever the setting. Used with additional decorations or simply bare, the Chateau will bring high class event sophistication with the ease of handling of a folding chair. Chateau chairs are folding, stacking (horizontally and vertically), and come equipped with an interlocking feature that makes moving and storing them quite simple. They are strong, durable, weatherproof, UV protected, don't need painting and require very little maintenance.

MATERIAL: composite multi-layer techno-polymer, stainless steel hardware. 1/4" snap in seat is a resin board, CAL 117 Foam and PVC cover.

Available in "**super white**", **black**, **redwood**, **silver**, and **gold**. Standard vinyl seat is white or black.

WEIGHT: 10 lbs

DIMENSIONS:

Seat:	15 x 16 x 17 h [in.]
Folded:	17 3/8 x 41 1/4 x 2 1/3 [in.]

Link Spacer (for High Back chairs & Structure only)

Sometimes linking chairs together is mandatory.

Whenever you link chairs without spacing, you oblige guests to squeeze in a 17"/18" chair. They need space!!! With our link & spacer device, you can give 3" more comfort to your customers and guests so that the feeling is to sit on a wider space.

When linking chairs together is mandatory for public seating, our solution is excellent:

- snap on, NO TOOLS required
- leaves 3" between linked chairs
- placeholder can be used to customize seating

Available in **white** or **black**.

NO GANGING

LINK & 3" ADDITIONAL SPACE
